The EVIL DEAD fans, A.K.A. The *Deadites* are everywhere. Some of them have been collecting merchandise for a year, others since 5, 10 or even 20 years now. It's not about ego. They do not share their collection to show that they are better than the others. They are a family who are interacting and helping each other in their quest to become a Deadites.

HAIL TO THE DEADITES puts the spotlight on the fans that cultivated and spread this groovy pop-culture infection! It celebrates those who've celebrated the films! It shows the diversity among fans and how easily the excitement of a shared love can bridge people together. How a cult classic film is more than just a cult classic film. How the humanity in horror movies and those who love them is still there even if social media might make you think otherwise. It's a film full to bursting with passion, both from those that were a part of the movies, and those that love to watch them
